HTR-number and finish abbreviation

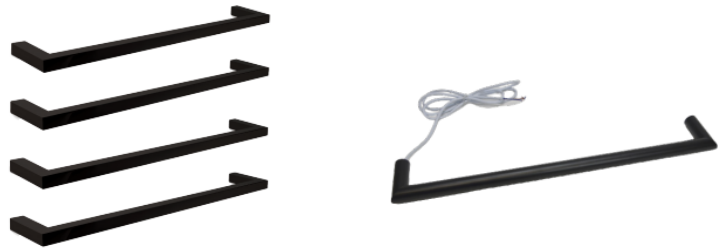

PRODUCT DESCRIPTION

Warmup® Towel Warmers were designed and built with simplicity in mind. Constructed of high quality 304 stainless steel, expertly welded in unique designs, Warmup towel warmers are safe and easy to use.

Mounting the towel warmer is very simple. Make sure to read the Instruction Manual for the do's and don'ts and solicit the help of qualified tradesmen when necessary.

Warmup® Towel Warmers require hard-wiring to a power source, but do not require a control. Warmup recommends to wire the towel warmer to a GFCI protected circuit controlled by a switch or timer.

Wire with No Control
Wire to a Switch
Wire to a Timer

Enjoy a warm, dry the towel in an active household and prevent moldy towels in a poorly ventilated space with a Warmup® Towel Warmer.

UL Product Spec: E486964
